

WE ARE
COOL
WE ARE DIFFERENT

Dear Mom,

Did you know that the main function of the skin is protection against external agents, so it is necessary to always keep it in perfect condition. Our children are no longer babies, and we want to continue taking care of them as the first day, which is why Roofa Spain® has developed a line of products for children from 4 years old, with thermal water, and specific essential ingredients to take care of the skin and hair.

The thermal water used for the formulation of Roofa Spain™'s products is concentrated thermal water from the Salies de Béarn thermal baths (France), it is rich in minerals and trace elements essential for the metabolism of dermal cells and with multiple actions that characterize it as MINERAL-MEDICINAL.

The COOL KIDS line, in addition to caring for it, stimulates your imagination through its different original and fantastic characters.
